hi! ☆☆☆
Hound r you?

Born in and inspired by Bangkok, Greyhound Cafe offers a mixture of taste in culture and art. From traditional to modern, from street to culture, from local to international, all mixed together in a beautiful chaotic way. And just like Greyhound's style, all dishes are simple and easy with creative twist.

Greyhound Cafe is not a traditional Thai restaurant! Our food concept is about adopting and adapting, mixing and matching, and in many cases – they are a mismatch! Our recipes come from far and wide. Some were handed down from grandmother and some were thrown together after a refrigerator raid at midnight. Many are faithful interpretation of our favorites from journey around the world.

In Jakarta, aside from its well-known Bangkok food with a twist, Greyhound is also equipped with a beautiful bar, ample list of wine, cocktails and spirit; and lively music performances on regular basis, providing a chic yet comforting lounge mood.
